

***Important Insurance Info Regarding Netbooks!***

For those families who have elected to insure their student's netbook through the district's vendor, Worth Ave. Group, we have just become aware of a special requirement of Worth Ave. Group's netbook insurance policy. If a family has insured their student's netbook and the student is checked out a loaner for any reason, the family needs to call Worth Ave. Group and give them the serial number of the loaner so that it is granted temporary coverage. **Any damage or loss to the loaner computer IS NOT COVERED unless this step is taken.**

To assist you with this, here is a [LINK](#) to a document showing the serial number location for each of the two devices used by our EAS students. When you contact Worth Ave. Group (1-800-620-2885) be prepared to provide your policy number, along with the serial number of the loaner device checked out to your student. If you have any questions regarding this, please contact **Brian Healy** [bhealy@lwsd.org](mailto:bhealy@lwsd.org).
